Neurodiversity Career Fair 2026

Dear Prof Sefotho

Attending the Neurodivergent Career Fair was truly a one-of-a-kind experience. It was exceptionally well organised and genuinely lived up to its theme of being an asset-based event. For me, it was a day well invested — spent in the inspiring company of people who refuse to be defined by limitations, but instead by their strengths and talents. My heartfelt appreciation goes to Prof Sefotho for his warmth and hospitality as a host, to the organising team, the participating schools, the speakers and all the learners who brought their best and made the day both meaningful and memorable. The Centre for Neurodiversity can certainly count on the goodwill and support of the African Left Handers Foundation going forward.

Best wishes,

Mandla Simelane
